About NAGA

NAGA is an innovative fintech company that has developed a socially enhanced financial system that creates a unified and seamless experience across personal finance and investing. Its proprietary platform offers a range of products ranging from trading, investing, and cryptocurrencies to a physical VISA card and social investing features such as a Feed, a Messenger and Auto-Copy. NAGA is a synergistic all-in-one solution that's accessible and inclusive, and that provides a better way to trade, invest, connect, earn, acquire and pay, across both fiat and crypto.
