Buffer solution

The Buffer feature enable you to make payments from your main account, even when it is empty, if you have funds available in a second crypto account.

Buffer assesses both accounts, runs an almost instant approval process and completes the transaction with funds from the second account. You will barely notice a difference at point of sale – fully frictionless payments.

For more information about the Buffer feature, please visit <https://www.confis.com/solutions/buffer/>.

Cryptocurrencies are highly volatile and trading can result in loss of your invested funds. Before investing you should be aware that cryptocurrencies may not be suitable for all investors. You should therefore carefully consider whether trading or holding digital assets is suitable for you in light of your financial condition and not invest money that you can not afford to lose.
